The Central Valley Bird Club maintains an internet web site for current information about upcoming field trips and other events: **www.CVBirds.org**

The *Central Valley Bird Club Bulletin* welcomes the contribution of articles, notes, and news of research and publications on the avifauna of California's Central Valley. Of particular interest is original information that touches on status, distribution, ecology, and conservation. Contribution of high quality photographs and artwork are also welcomed. Potential contributors are encouraged to contact the editor for further information.
